

Open Call

Exhibition opportunity

at the gallery die 8

for 2024

The gallery die 8

Künstlerstadt Kalbe could win the former fashion house Roesse in 2020 for an interim use. Since then, changing exhibitions of various artists, workshops, readings, concerts, lectures and opportunities for exchange about art are offered on the 100 square meters. A new program is now being curated for 2024.

The artist city Kalbe

The Künstlerstadt Kalbe, founded in 2013, is an innovative project in the Altmark (Saxony-Anhalt) with the goal of countering demographic change through art and culture.

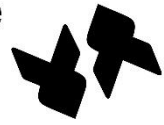

In the spirit of Joseph Beuys' concept of social sculpture, the artist city of Kalbe sees itself as a place where the creative and formative power of each individual is to be unleashed in order to build a free, sustainable and livable society.

The Künstlerstadt Kalbe has already received numerous prizes and awards for its work. It enjoys international attention.
